# Shocking Exposé!

# Corruption in the ranks Counselor found guilty of picky eating

By Angela Mayzsak and Daniel Ziegler

ROSEDALE, Ohio -- Hear YE! Hear YE! On Monday at 5:33 p.m. one Anthony Gehman, a vital member of the Choral Camp staff, was apprehended with intent to deposit his vegetables in an unsuspecting milk carton.

At first glance, the milk carton appeared to be an empty beverage receptacle. However, upon further investigation it was discovered to be a clandestine green bean depository. [Play opening notes from Bach's Toccata and Fugue in D Minor here!]

On Tuesday afternoon the Record conducted an interview with the alleged "Bean-Hider" Gehman. In the course of this interview it came to light that "Bean-Hider" was "not in the mood for green beans." [GASP!!!!!]

Said "Bean-Hider" Gehman, "I was going to ask them [the kitchen help] to not give me any [green beans], but before I could say a solitary word they gave me a whole bunch [of those wretched legumes]!" When questioned about his motives, "Bean-Hider" Gehman responded with an almost guilt-stricken grin, "I accidentally spilt [the nasty greens] ever so inconveniently into my vacant milk carton."

"I could lie and say that I'm allergic to green beans, but that would be a lie!" said Gehman. When asked how this might affect the Choral Campers and their fragile dietary lives, "Bean-Hider" replied with great remorse, "I hope not at all."

Unfortunately, the repercussions for "Bean-Hider" Gehman were most severe. Not only did he increase his risk of contracting scurvy (a vitamin C deficiency) but he also had to miss the first ten minutes of the Choral Camp Cream.

In abject sorrow "Bean-Hider" Gehman uttered these remorse-filled words to all Choral Campers: "Kids, eat your green beans!"

The woeful tale of "Bean-Hider" Gehman proves that though you might get away with hiding your beans for a time, dire consequences are lurking right around the corner.

Above: "Bean-Hider" Gehman ditches his food.

## How the unicycle was invented, part 2

#### A cautionary tale by Daniel Ziegler and Matt Wolfer, two moral guys

Editor's note: Yesterday, Hicham's brave foredonkey Micham was racing in Morocco's Tour-de-Fez Bicycle Race (in 1843!). He had just pulled ahead of his nemesis, Umayyad, when he heard an odd noise...

You see, most bicycles don't have motors, but Micham heard the unmistakable sound of a two-stroke engine creeping up behind him.

He turned his head just in time to see that it wasn't Umayyad's bicycle which was making the noise—it was a chainsaw which Umayyad was brandishing while braying at the top of his lungs!

Shards of metal flew through the air as Umayyad's chainsaw sliced quickly through Micham's bicycle.

The onlookers brayed, neighed and

Misham crosses the finish line in a blaze of glory and cats. The cats are kind of hard to see.

stomped their hooves in amazement. They all turned away and covered their eyes in shock. But when they uncovered their eyes, their jaws dropped in astonishment.

Micham was pedaling away in pursuit of

Umayyad, not on a two-wheeled bicycle, but on a one-wheeled unicycle!

When Micham, balanced on the handlebars of his new unicycle, passed Umayyad, the mean donkey was so surprised that he smashed straight into a turnip cart that someone had carelessly left on the road.

Micham soon passed the finish line on his spectacular contraption. As Micham got off his unicycle and took his place on the winner's platform, every single donkey in the crowd waved their tails and brayed their loudest. Micham went on to be the victor at many, many Annual Tour-de-Fez Bicycle and Unicycle Races.

No one knows for sure what happened to Umayyad, the mean donkey, but hopefully he learned his lesson: It never pays to chainsaw your opponent's bicycle in half, no matter how much you want to win.
