## Camper Quote

To Mrs. Regina Yutzy-Wolfer: "My mother got married by accident."  
...horrified pause as Mrs. Yutzy-Wolfer is overcome with sympathy while contemplating Leah and Rachel from the Bible... Camper, with perfect timing, adds, "Accident, Maryland." ☺

## Group Slide Speeds Earth's Rotation

Scientists at NASA reported a three-second leap ahead in the Earth's rotation yesterday at precisely 1:45 p.m. Eastern Standard Time. Experts in terrestrial rotational geology have traced the cause of the leap to a seismic disturbance in Rosedale, Ohio. Rotational geologist Eustace Brainwater said, "This kind of thing is often caused by a large group of people sprinting in the same direction and then diving onto a wet tarp and sliding—sometimes it's known as a 'group slide.' The friction and momentum of all those bodies hitting the ground at the same time headed east actually pushes the Earth ahead into a faster spin. Hopefully the group responsible for this will do a

group slide in the opposite direction tomorrow to slow the earth back down and get those three seconds back." When questioned closely about the science backing up his "group slide" theory, Mr. Brainwater confessed that he was "just guessing" and that he himself does not, in fact, exist.\* "But I know there's a Choral Camp at Rosedale that does this kind of thing during "Choral Camp Cream." And time always seems to fly by a whole lot faster during that camp. That's proof enough for me."

*Record* readers, what do YOU think? What's your explanation for why time flies by so quickly at Choral Camp? The *Record* would love to hear your scientific explanations.

\*Editor's note: Eustace Brainwater's non-existence does not make him any less brilliant. He is still just as smart as he would be if he were a real person.

## Kara Heatwole: Black Belt Ninja or Mild-Mannered Intern?

by Karissa Brenneman

Last night administrative intern Kara Heatwole was seen outside Handel Hall pulling crazy karate moves and shouting. I spoke with eyewitnesses Sarah Spicer, Eliz Slabaugh, and Christina Kauffman, who were awake because they were concerned for their safety in the wild corn fields of Rosedale. They all agreed that Kara's behavior was startling and strange. "It was kinda weird that she was doing karate moves in the middle of the night," Eliz commented. "She appeared out of nowhere," quipped Christina. The girls also claim that the ninja said she would protect them. They speculated that Kara could have been sleep-walking. Kara's explanation was very calm: "Of course I was outside. We watch the lights go off in camper's rooms to see who gets to bed on time." I then asked if she was, in fact, a black belt; "I'm not even a white belt. I don't even wear a belt." But the photograph tells a different story. My final question for Kara was "What do you want to tell the girls who saw you last night?" She replied, "God's the protector and provider and if He does it through ninjas, then those girls will be extra safe."

## Destination: Afghanistan!

-By Assistant Editor Brittany Tull

Campers got a taste of the music and culture of Afghanistan in Lynette Showalter's culture class. Chelsey Smith (left) got a chance to try on a burka. When asked how it felt, she responded "I can't see my feet!" Other campers were heard exclaiming, "Wow, it's like she disappeared." "You can't tell if she's smiling." "You can't tell if she's sticking out her tongue." Campers also got the chance to participate in the national dance of Afghanistan (bottom right). Fun fact: The national dance of Afghanistan is quite long and fast paced! You know it's over when no one is left standing - everyone has fallen to the ground from exhaustion. The class participated in a concert of prayer for the people of Afghanistan. To end the class, Lynette reminded us to, "Take your music with you wherever you go."
